EDUCATION

Carnegie Mellon University

Bachelor in ~~Paradise~~ of Science in Information Systems

Additional Major in Statistics

Expected Graduation: Soon, I hope

Relevant Coursework:

- 99-101: Computing at CMU
- 57-209: The Beatles
- 98-269: Baseball Nerd Culture
- 67-250: BS for IS
- 15-112, or How I learned to stop worrying and accept the Cult of Kosbie
- 67-272: Technical Interview: The Class

"WORK" EXPERIENCE

GoMommy | *Software Engineering Intern* | Summer 2016

- Worked on the latest and greatest of GoMommy advertising, utilizing new techniques like violating safe-spaces, micro-aggression, and cementing the patriarchy. Won company-wide "hackathon", which consisted of pestering customers until they bought a domain to shut us up.

Yodeler | *Software Engineering Intern* | Summer 2015

- Utilized technologies like autotune, 8-track recording, and Windows Movie Maker XP Edition™ to reduce site traffic relevant to the platform by ~60%. Also curated wiki and ushered in new standards for ~~hazing new recruits~~ quickly on-boarding newly hired developers.

PROJECTS

SWOT Analysis | *67-102 Concepts of Information Systems* | Spring 2014

- Wrote research business investigation for Brazzers.com. Analysis consisted of **strengths**, **weaknesses**, **opportunities**, and **threats**, for the free adult entertainment site. Earned the resounding response of "A-, please come to my office"

C0 Virtual Machine | *15-122: Principles of Irritating Confusion* | Fall 2014

- Wrote virtual machine that read compiled byte code for "educational" language c0. Honestly, I have absolutely no clue how this project worked.

TECHNICAL SKILLS

- EcmaScript 7
- HTML / CSS / DTF
- The git that keeps on giving
- React / Angular
- ArnoldC
- Segmented Quail Linguistics
- Going off the Ruby on Rails

ACTIVITIES

Carnegie Mellon Varsity Swim Team

- Never lost in race with breaststroke in it
- 2014 Freshman-of-the-Year Award (5th place)
- Disqualified relay in first tapered swim on the team
- Didn't quit
